

I am a fresh graduate from Universitas Negeri Malang. I'm adept at both physical and tangible analysis. I can also create web pages as a novice front-end developer.

Kharisma Adhiguna

Work Experience

Lab Assistant • Optic Laboratory Universitas Negeri Malang

I help students conduct optical experiments as part of my profession here. They have written experimental reports, which I am in charge of evaluating and offering guidance on.

January 2022 - June 2022

Intern • Pusat Sains Antariksa Lembaga Penerbangan dan Antariksa Nasional (LAPAN) Bandung

I'm here working on a project. The goal of the study is to classify the geomagnetic storms that occur throughout the 24th solar cycle. The duration of this internship program is around three months.

August 2021 - October 2021

Lab Assistant • Electromagnetic Laboratory Universitas Negeri Malang

I help students conduct optical experiments as part of my profession here. They have written experimental reports, which I am in charge of evaluating and offering guidance on.

January 2020 - June 2020

Private Tutor • Freelance

I am in charge of teaching a junior high school student math and science lessons.

January 2019 - June 2019

Organization Experience

President of Spiritual Division • HMJ Fisika Universitas Negeri Malang

I am in charge of encouraging the spiritual division's members and offering counsel on the work schedule that has been created by them. Additionally, I am in charge of forming connections with other religious groups both inside and outside of the university.

January 2020 - January 2021

Member of Welfare Field • HMJ Fisika Universitas Negeri Malang

I was tasked with creating a work plan and eventually rose to the position of CEO. Qurban and Religious Lectures is the program I produced. I was able to work together to provide sponsorship in the form of three goats with the help of a non-governmental organization in Malang City. I serve on the executive committee for the HMJ Physics programs.

January 2019 - January 2020

Chief Executive • Qurban HMJ Fisika Universitas Negeri Malang

I was appointed Qurban's Chief Executive in the Physics department. Here, I'm in charge of raising money, managing the distribution of Qurban animals, working with sponsors outside of the university, and disclosing the outcomes of work programs that have been completed.

January 2019 - December 2019

Person in Charge • HMJ Fisika Universitas Negeri Malang

The Nucleon Physics Olympiad (NUPHO), a physics competition for junior and senior high schools in Java and Bali, is a nationwide work program for which I am responsible for the Bali Province.

September 2018 - September 2020

Volunteer Experience

Environmental Division • Ekspedisi Sapa Papua Arah Pemuda Indonesia

This activity was carried out in Yenwaupnor Village, Raja Ampat. The work program that had been prepared earlier was implemented by myself and the environmental division team. Its work programs include educating people about the risks of open defecation, recycling plastic garbage, growing medicinal plants, going for walks on the beach, and cleaning coral reefs. Two weeks passed with this activity. I have a lot of relationships and experiences that are really helpful in my real life.

January 2021 - February 2021

Human Relationship • Kuliah Kerja Nyata (KKN) Universitas Negeri Malang, Desa Banjarejo

The purpose of this activity is to complete KKN courses. The activity in Banjarejo Village lasted 45 days. The programs compiled deal with subjects like sports, the creative economy, the Covid-19 pandemic, and education.

July 2021 - August 2021

Achievement

Delegation • International Youth Leader Chapter Hello Japan 2022

I was selected as a delegate to the Tokyo, Japan, International Youth Leader program. This program was moved to this year because of the epidemic from the previous year. The program aims to develop the leadership abilities of young Indonesians on a global scale. In order to determine what makes the nation's economy so strong, I will also undertake studies on the global market there. I will also have the chance to go to my ideal campus to pursue my master's degree studies.

2022

Certification

Front-End Developer • IDCamp x Dicoding

I was chosen for the IDCamp x Dicoding program, which seeks to educate recent graduates with a passion for digital development. I'm learning how to create websites as I am taking the Front-End Developer program right now.

July 2022 - September 2022

SAP Analytics Cloud • ASEAN Foundation Digital Empowerment and SAP

I was selected for the SAP Analytics Cloud program, which aims to learn the SAP Analytics Cloud for business and many more. SAP Analytics Cloud is an all-in-one cloud product offered as software as a service (SaaS) for business intelligence (BI), planning, and predictive analytics. Built natively on SAP BTP, it provides a unified and secure public cloud experience to maximize data-driven decision making.

July 2022 - December 2022

TOEFL ITP • ETS

I took the official English test from ETS, namely TOEFL ITP. I got a score of 540 and am at level B2 (Upper-Intermediate).
